

# TILITE<sup>®</sup>

“MEDICALLY PURE ALLOY”

Talladium's Bio-Medical Research Laboratory adapted aerospace technology in the creation of their Tilite Ceramic Alloys.

Tilite's proprietary formula is based on the same science that NASA used in the fabrication of the porcelain fused to metal heat shield for the Apollo Space Program. This formula allows Tilite to absorb heat at the same rate as the porcelain, thus eliminating the stress and strain between metal and porcelain for an excellent porcelain bond.

- **TILITE OFFERS 4 DIFFERENT COEFFICIENT ALLOYS**
- **OVER 125 MILLION UNITS IN THE MOUTH WITH NO BIOLOGICAL PROBLEMS.**
- **\$5,000,000 INSURANCE POLICY PROTECTION**  
**- PATIENT - DOCTORS - LAB**
- **F.D.A. ACCEPTED & ISO CERTIFICATION**

**MADE WITH PRIDE  
IN THE  
USA**
